Dear Fred:

I have now had an opportunity to read over the typed script you gave me which, I believe, is not quite complete. What I have gone over includes pages 1 to 125 and then 1c (5 pages), 1d (24 pages) and 1e (30 pages).

I find some problems -- they are problems of accuracy and good taste, rather than security -- on pages 48 (lines 8-9), 50 (lines 6-8 from bottom), 53 and 4 (last lines 3-4 and first four lines of 54 with reference to "boundary" is bad), 75 (last phase line 3-4), 105, 106 (this discussion is overdrawn) and 118, (line 14 - date is wrong. I believe we corrected this).

Also on page 4d (but this was reported) and the second rendering on 5-6d is OK as far as I am concerned.

I shall keep these copies of this script available and will clear up any of these points by telephone. You also told me when you gave me this copy that there were some additional items to be added. However, there is so much excess material anyway that you may not wish to use these particular sections. In some cases, of course, there are only a few words, on the pages indicated, to be deleted.

Faithfully yours,

Signed

Allen W. Dulles
